Objective

A Design graduate with a passion for visual expression, I aim to expand my scope beyond surface aesthetics. My professional journey has led me to seek a deeper understanding of the creative process, prompting me to steer my career towards front-end development. I am excited about the prospect of translating visual concepts into interactive and functional experiences, leveraging my skills and knowledge in web technologies. Currently, I am immersed in intensive studies to enhance my skills and eagerly anticipate an opportunity to contribute as a Front End Developer in a workplace, where I can apply my passion for creating engaging interfaces and collaborate in a dynamic and innovative environment.

Education:

- Design - Universidade de Guarulhos (2018)
- Computer Networks - FIAP (2010)

Professional Experience:

FREELANCER | Graphic Design | 06/2012 - Present
- Developed UI interfaces for websites and applications using Figma.
- Applied color theory to create better interfaces tailored to each client's target audience.
- Implemented UX elements for improved performance tailored to the target audience.

APPEN BUTTLER HILL | Search Engine Evaluator | 07/2014 – 10/2020
- Analyzed search engine result efficiency.
- Reviewed video content on streaming platforms.
- Provided translations and validation of translations.

GROUPON | IT Analyst | 01/2011 – 07/2012
- Provided support to employees located on-site and in other states via Zendesk.
- Implemented inventory organization practices and employee equipment management system, increasing efficiency in HR hiring processes nationwide.
- Configured and maintained network and internet services.
- Managed inventory of laptops and cellphones.
- Collaborated cross-functionally for continuous improvement of IT processes.
- Configured and maintained servers.

Courses:

- Front-End Specialization - ONE T6 - Oracle One/Alura (2024)
  HTML/CSS, Responsiveness, React, Javascript, Git, Agile Methodologies, Entrepreneurship, Career Empowerment.
- Professional Front-End Developer Certificate - Coursera/Meta (2023)
  HTML/CSS, Responsiveness, React, Bootstrap, Tailwind, Version Control, Git, Unit Testing, UX Design.
- CS50 - Introduction to Computer Science - Fundação na prática/Harvard (2024)

Programming logic, C, Python, PHP, HTML/CSS, Flask, IA.

Additional Courses:
- Responsive Web Design - FreeCodeCamp (2023)
- Javascript Algorithms and Data Structures - FreeCodeCamp (2023)
- Learn React - Scrimba (2024)
- Learn Javascript - Scrimba (2024)
- Introduction to Web Development - Code First Girls (2022)
- Essential do Design UI/UX in Figma - Udemy (2021)

Skills:
- **Methodologies:** Scrum and Kanban
- **Front-End: CSS (**Bootstrap 4/5, Tailwind CSS), React. (Currently studying)
- **Operating Systems:** Windows, MacOS
- **Concepts:** UI/UX, Mobile First, Clean Code
- **Office Applications:** Microsoft Word, Microsoft Outlook, Microsoft Excel, Microsoft PowerPoint.

Additional Information:
- Continuously self-taught in web programming, focusing on Front-End, and constantly seeking to enhance skills.
- Swimmer, gamer, cook, amateur painter, and music lover.
